GRIST MILL VENTURES, LLC

Data drives everything...harness its power

BACKGROUND

- No international data classification exists, to date.
  - No objective way to communicate how users should use, store, and share any particular data asset.
- Offers a strawman standard to support international, domestic, and intra-organizational data classification.

CLASSIFICATION COMPONENTS

Term	Definition
1. Origination	the beginning or creation of something.
2. Sensitivity	the capacity of being easily hurt or damaged
3. Entity Type	something that has separate and distinct existence and objective or conceptual reality
4. Rationale for Control	The reason one exercises restraint or direct influence over a certain type of data
5. Retention Schedule	describes (1) length of time each record will be retained, (2) the reason for its retention, and (3) the final disposition of the record
6. Dissemination Control	the act or process of disseminating or spreading something
